DETAILED ACTION

Oath/Declaration

1. The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:

Applicant has not given a **post office address** anywhere in the application papers as required by 37 CFR 1.33(a), which was in effect at the time of filing of the oath or declaration. A statement over applicant's signature providing a complete post office address is required.

Applicant is now required to submit a substitute declaration or oath to correct the deficiencies set forth in this communication. The substitute oath or declaration must be filed within the THREE MONTH shortened statutory period set for reply in the "Notice of Allowability" (PTO-37). Extensions of time may NOT be obtained under the provisions of 37 CFR 1.136. Failure to timely file the substitute declaration (or oath) will result in **ABANDONMENT** of the application. The transmittal letter accompanying the declaration (or oath) should indicate the date of the "Notice of Allowance" (PTOL-85) and the application number in the upper right hand corner.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided

by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Simon Mark Kahn on March 2, 2005.

The application has been amended as follows:

Cancel claims 54-57.

Allowable Subject Matter

3. Claims 38-53 are allowed.

The following is an examiner's statement of reasons for allowance: The allowability of the claims resides, at least in part, that the closest prior art of record **Schwan (US 6,243,818)** does not disclose or suggest, alone or in combination the step of:

Regarding independent claim 38, **an Ethernet switch assembly comprising: current limiting circuitry connected to the line interface circuitry and controlling current delivered by the line interface circuitry into the communicating cabling, said current limiting circuitry being operative to provide a current limit level for each node**, in combination with the other elements and features of the claimed invention.

Regarding independent claim 53, **An Ethernet switch assembly comprising: Current limiting circuitry connected to the line interface circuitry and controlling current coupled by said line interface circuitry for transmission to at some of the plurality of nodes, said current limiting circuitry being operative to provide a**

current limit for each of the plurality of nodes, in combination with the other elements and features of the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
